

SMART

PROGRAM DESIGNED TO:

- » Channel excitement into product development
- » Facilitate new partnerships, discussion, and ideas
- » Give attendees access to experts, materials, and education
- » Showcase innovative suppliers
- » Create a common understanding among textile, technology, manufacturing and design

Smart Fabrics and E-Textiles at IFAI Expo

E-Textiles Workshop

A gathering place for e-textiles innovators, suppliers, beginners, and experts—on the show floor (Booth A200).

Coffee provided by Jakob Mueller
Open during show floor hours

Kits

Open to all | While supplies last

- 1 Watch Intro to E-Textiles video
- 2 Visit the E-Textiles Workshop suppliers
- 3 Work with experts to assemble an E-textile device
- 4 Network while learning with your hands

Ask the Experts

A diverse panel of experts in IP, Law, Standards, Flexible Substrates, Electronic Components and Interoperability. Panel will exchange understanding among the diverse points of view and field questions from the audience

Open to all | Wednesday Noon–2 pm

Market Discussions

Open forum discussions on e-textiles in specific market applications

Open to all | See daily schedules starting on page 24.

E-Textiles Hackathon Design Challenge

A contest to spur innovative, new e-textiles products with commercial value, using only materials found in the E-Textiles Workshop.

Attend the Winner Announcement
Friday 9:30 am | Booth A200

Cash prizes are sponsored by
