TESTING CERTIFICATES

Intro to Testing Certificate

Regardless of where you are in the supply chain, you need to know how your textile product will perform for your customers. This informal seminar is designed to help you understand the basics of textile testing so that you can better inform your customers and promote your product.

- understand what textile test methods are and whether they apply to your product
- determine the difference between standard and non-standard testing
- identify performance specifications and how they can help to define your product
- identify resources for your textile testing questions

REQUIREMENTS

- 1 Any Expo registration—This course is free!
- 2 Attend one Intro to Testing Seminar Tuesday or Wednesday 11 am-12:30 pm Testing Education Booth A3036
- 3 Lab Time. Watch one demo from each testing exhibitor and four videos. Anytime Tuesday-Thursday, during show floor hours Testing Demo Zone Booth A2833
- 4 Attend one Testing Q&A Session Schedule: IFAIexpo.com/Testing Testing Education Booth A3036
- 5 Turn in completed requirements to get certificate by 1 pm on Thursday NCSU Booth A2833

TESTING DEMO ZONE

Visit the Testing Demo Zone on the show floor (Booth A2833) to interact with experts and see the latest equipment. You'll find live demonstrations, Q&A sessions and videos designed to create a better understanding of testing, current research, product development and product claims.

Textile Testing Essentials Certificate

Select full registration and earn a testing certificate from NC State University for completing the Advanced Textiles Testing sessions (all day Monday) and "lab time" in the Testing Demo Zone. Use this certificate as credit toward the NC State Textile Technology Certificate Program.

This track is designed by NC State to help you make better decisions based on textile properties and understand both the methodology and the interpretation of standard test procedures.

REQUIREMENTS

- 1 Register for Full Conference
- 2 Attend all Advanced Textile testing sessions on Monday, 8 am-5:30 pm
- 3 Lab Time. Watch one demo from each testing exhibitor and four videos. Anytime Tuesday-Thursday during show floor hours Testing Demo Zone Booth A2833
- 4 Attend one Testing Q&A Session Schedule: IFAIexpo.com/Schedule Testing Education Booth A3036
- 5 Turn in completed requirements to get certificate by 1 pm on Thursday NCSU Booth A2833
