Air-bags

ISOTEX[®]

Tradition is our strength - Innovation is our mission

Air-bag: safety gains ground

Air-bags are widely used in the automotive industry and in other sectors. Safety and reliability are the main features of air-bags that need to perform at the highest standards under all circumstances. Precision, state of the art technology and reproducibility allow our customers to achieve the highest quality standards.

Isotex is the leader in complete airbag coating lines. Innovation is our answer to the increasing demand of quality and we have a long history of success in this sector.

Isotex has been following from the beginning the development of the quality standards and the technical requirements of this industry achieving outstanding levels in the qualification process.

Main Features

RELIABILITY: PC controlled supervision systems in all steps of the production process guarantee the control of quality and allows to record the data for the certification in compliance with the standards of quality in the industry.

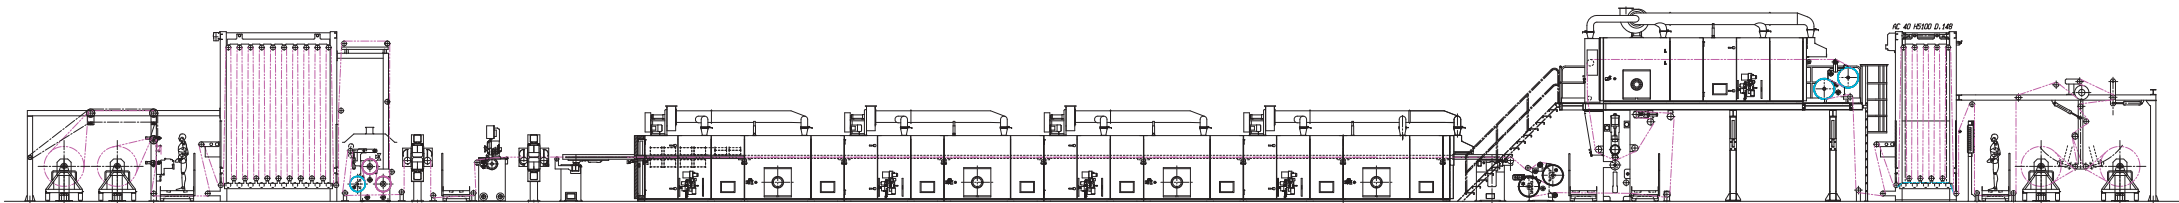

CUSTOMIZED SOLUTIONS: specialized technical expertise allows ISOTEX to develop solutions that fully meet the customer's needs as well as the latest standards of the automotive industry.

HIGH-PRECISION COATING: our state of the art coating heads with high automation and full control of the process allow to reach high consistency and quality in production, with special focus for thickness and weight control, before and after coating.

OPTIMAL DRYING: the drying ovens guarantee maximum quality and energy efficiency and new innovative energy saving solutions are available.

ISOBAG
TECHNICAL DATA:
Table width: 3200 mm
Working speed: 40 m/mim
Pulling value: 300 daN
