ISOTEX[®]

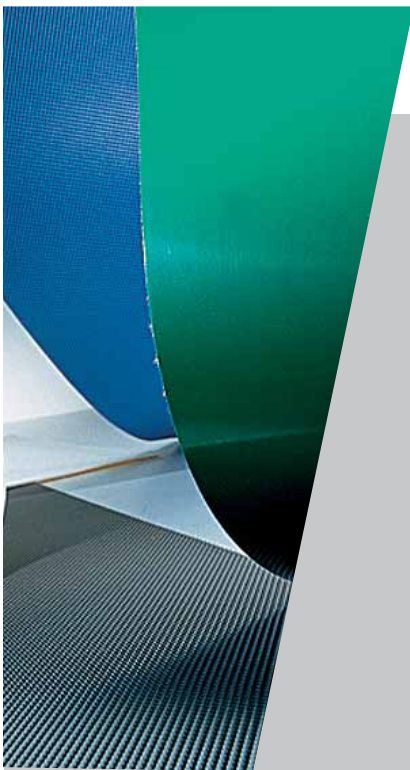

Tradition is our strength - Innovation is our mission

Conveyor belts: quality, durability and flexibility in motion systems

Isobelt is designed for the production of technical conveyor belts for airport & logistics, handling and lifting systems, belts for mining and marble sector, tilted belt conveyors, ski resorts belts, tobacco and food belts and multi-purpose industrial belts.

Our lines for special applications include acid and grease-resistant belts for food and mineral or vegetable oil as well as highly flexible belts and silent sliding belts for fitness equipment.

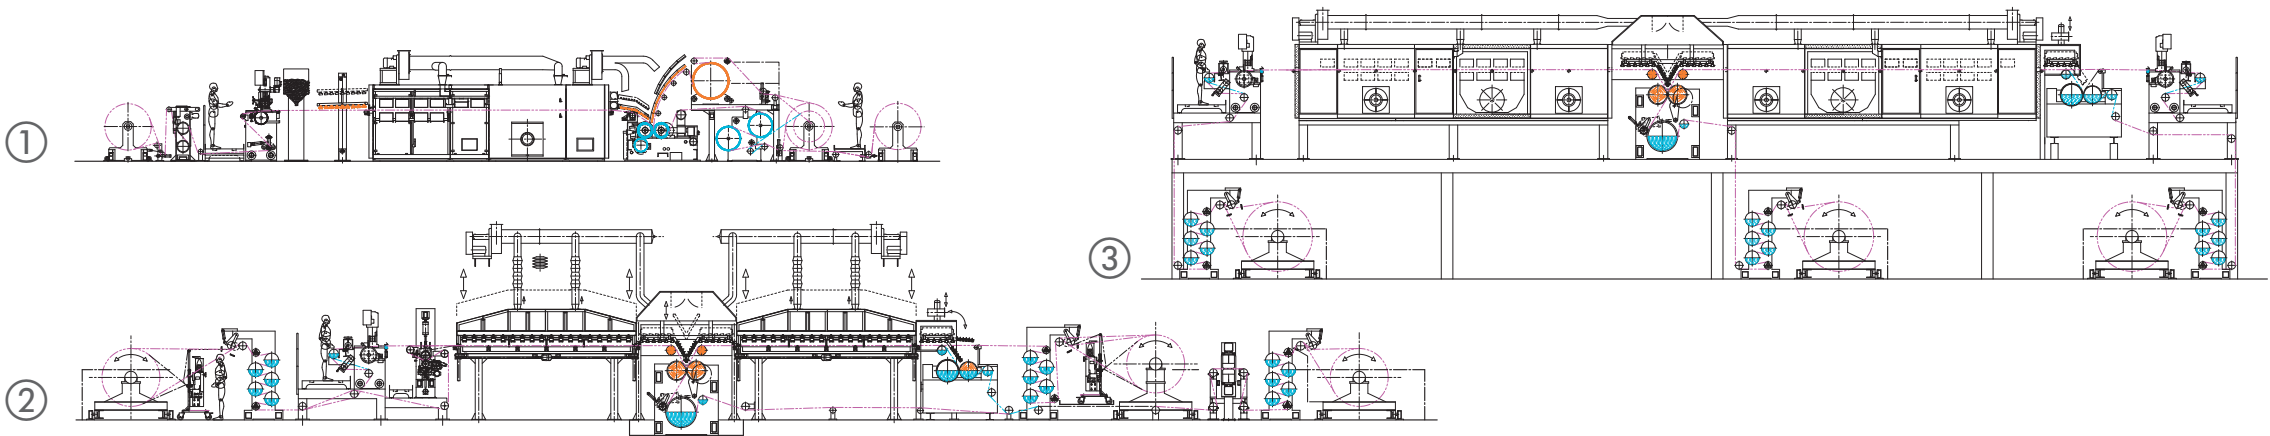

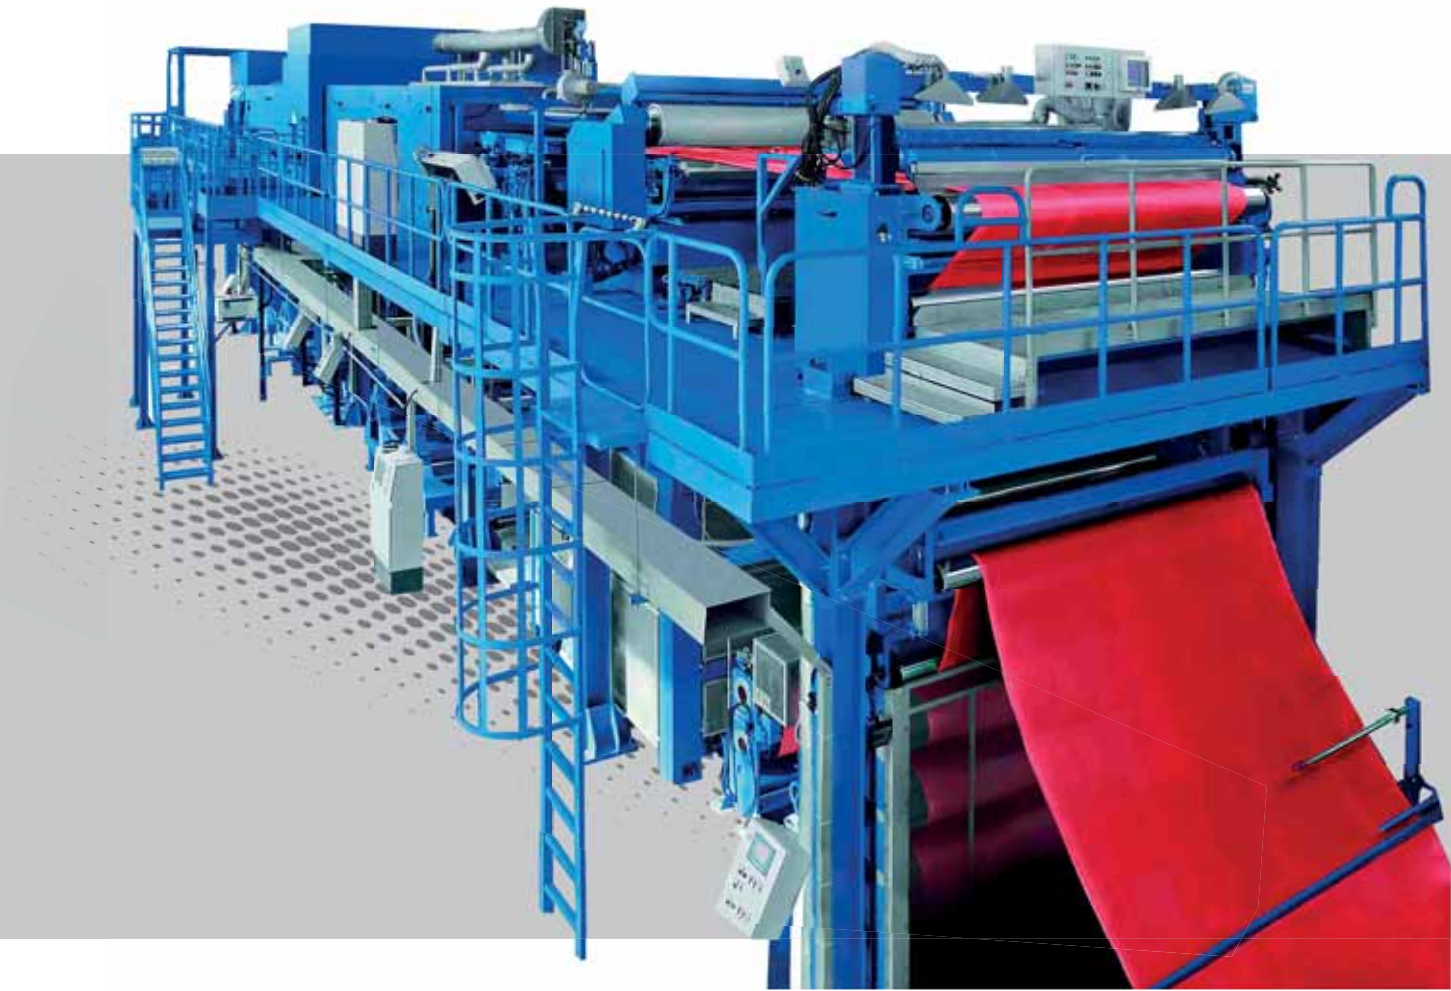

Main Features

RELIABILITY: during production cycles fabrics are constantly tensioned.

FLEXIBILITY: multiple coating and lamination allow a wide range of belt structures. Construction and lamination are made in a single production line with multi-process steps.

CUSTOMIZED SOLUTIONS: specialized technical expertise allows ISOTEX to develop solutions that fully meet the customer's needs as well as the latest industrial standards.

HIGH-PRECISION COATING: our state of the art coating heads with high automation and full control of the process allow to reach high consistency and quality of production, with special care for thickness and weight control, before and after coating.
